## Natasha's Nurturing Nest Care Curriculum

### Flexible Approach to Learning

**Why adopt the Flexible Approach?** When I was a child in school, I didn't understand why I disliked school so much! Now I know that it was because I had very little freedom of choice and classes were extremely boring. I couldn't choose my subjects/classes, teachers, Schedule or the type of school I wanted to attend. I went to college and I was able to choose my major, teachers, extracurricular activities, class schedule and I was responsible for the good and bad choices I made. Today, as a professional and entrepreneur, having the freedom of choice has influenced my creativity, confidence, hobbies and choices, all which leads to success if applied correctly.

Therefore, at an early age, children need autonomy to explore and develop interest, to make choices and mistakes, creativity and decision making! My flexible approach is based on the needs of the family and interest of each child. Although my program uses the flexible approach to learning, children can expect to engage in daily reading, writing, arts & crafts, and physical movement for their growth and well-being.

It is also critical that I maintain a structured yet friendly program, and streamline processes for optimal performance. This ranges from enforcing and adhering to policies, rules and regulations, the enrollment process, convenient methods of payments, service type (childcare, swimming), style of parenting, family recommendations, some scheduling flexibility and activity choices. I also depend on families, friends and supporters for feedback in order to improve and evolve.
